

Regulatory & Compliance Matters

Keeping up with changes in legal and regulatory matters can be difficult. Changes that affect your practice need your immediate attention. Verden Legal can help you stay on top of the latest news and guidelines, make sense of monetary incentive programs for electronic health records, and prepare for an audit *before* you need to. Verden develops compliance plans designed to meet your practice needs and protect your assets.

- **HIPAA Change**

Are you able to keep up with all the changes being made to HIPAA for privacy and security of your patient's medical records? Let Verden assist you with all your compliance questions and guide your practice toward developing and implementing procedures consistent with the most current rules and regulations.

- **Stark III**

Unsure if your current business arrangements run afoul of Stark III or Anti-Kickback statutes? Verden will review your contracts and business relationships and help to keep your practice protected from any potentially improper arrangements that may not comply with current provisions for practices.

- **Fraud & Abuse**

Verden continually monitors the most up-to-date rulings and determinations of fraud and abuse to assist practices in avoiding similar pitfalls. By helping practices develop appropriate office policies and internal controls, we can provide physicians with sound techniques to safeguard their practices from issues ranging from employee misconduct to patient insurance fraud.

- **State Regulations and Compliance**

With the ability to conduct legal research on a range of topics, Verden can provide guidance on the state regulations that affect your practice. Avoid the expense of costly retainers associated with hiring outside counsel—from state licensure issues to healthcare employee requirements, Verden is your legal resource.
